Subject: Amendment: Supplemental Label for recently approved New Use for Pome Fruit
Product Name: Sandea Herbicide
EPA Registration Number: 81880-18
Application Date: November 5, 2015
Decision Number: 511064

Dear Ms. Yepez:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval is only for a supplemental label that is an addendum to the master label. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

This supplemental labeling contains some new and/or revised uses and/or directions which may be additional to the uses and/or directions found on the label on or attached to the container, but this supplemental labeling does not by itself constitute the complete set of use directions. The complete set of use directions is set forth on the container label as combined with this supplemental labeling.

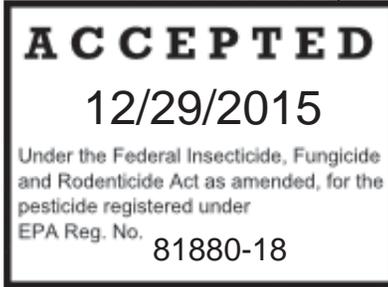

A stamped copy of your labeling is enclosed for your records. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Shanta Adeeb by phone at 703-3470502, or via email at adeeb.shanta@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Reuben Baris".

Supplemental Labeling

GROUP	2	HERBICIDE
-------	---	-----------

Sandea®

Herbicide

SANDEA® is a selective herbicide for control of listed broadleaf weeds and nutsedge

ACTIVE INGREDIENT:

Halosulfuron-methyl, methyl 3-chloro-5-(4,6-dimethoxypyrimidin-2-ylcarbamoysulfamoyl)

-1-methylpyrazole-4-carboxylate.....

OTHER INGREDIENTS

% BY WT.

75.0%

25.0%

TOTAL 100.0%

EPA Reg. No. 81880-18

This label expires 01-31-2019 and must not be used or distributed after that date.

KEEP OUT OF REACH OF CHILDREN CAUTION

Read the entire label before using this product.

- This labeling must be in the possession of the user at the time of pesticide application.
- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
- All applicable directions, restrictions and precautions on the EPA registered label are to be followed

<p>11-10 POME FRUIT GROUP (14) (West of the Rockies) Apple; azarole; crabapple; loquat; mayhaw; medlar; pear; pear, Asian; quince; quince, Chinese; quince, Japanese; tejocote; cultivars, varieties, and/or hybrids of these</p>	<p>3/4 - 2</p>	<p>Apply uniformly with ground equipment in a minimum of 15 gal of water per acre.</p> <p>Postemergence application for control of nutsedge: Apply SANDEA as a single broadcast application to orchard floor on either side of the row when nutsedge is fully emerged (early – midsummer). Alternatively, two applications can be made. Apply first application to the initial nutsedge flush when it has reached the 3-5 leaf stage. If a second treatment is needed, apply SANDEA later in the season directed to secondary nutsedge emergence. To maximize nutsedge control, do not apply if nutsedge has exceeded 12 inches in height.</p> <p>Preemergence and Postemergence application for control of labeled broadleaf weeds: Apply SANDEA as a single or sequential broadcast application to orchard floor on either side of the row based on weed pressure. If small weeds are present, to maximize and enhance the spectrum of broadleaf control tank mix with a postemergence broad spectrum type herbicide. Preemergence applications of SANDEA when ground cover prevents contact with the soil will result in reduced or no residual activity.</p> <p>PRECAUTIONS:</p> <ul style="list-style-type: none"> • For best results, use a NIS or penetrating type surfactant. • Avoid spray contact with tree foliage and fruit with spray or drift. • Consult "Use Precautions" and "For Optimum Results" sections for important usage information. • SANDEA may not control ALS resistant weeds. <p>RESTRICTIONS:</p> <ul style="list-style-type: none"> • Do not apply when orchard temperatures exceed 85°F at the time of application. • Do not concentrate the application rate into the treated swath. • Do not apply to trees established in a permanent orchard less than one calendar year. • Do not apply to nursery stock. • Minimum of 45 days between applications.. • Do not apply more than 2 applications or 2 oz/A of product by weight (0.094 lb a.i./acre) per 12 month period.
